

Job Opening – ABA Line Technician

Chartwell Center is looking to hire a Registered Line Technician to provide Applied Behavior Analysis (ABA) services to our children, adolescents and adults!

We are a nonprofit organization that has been serving individuals on the autism spectrum, ages 2 through adulthood, for the last 18 years. Parent driven and community supported, we have a newly renovated facility in the heart of New Orleans.

Those interested in the position should have a minimum of a high school degree, and candidates with college degrees are given additional consideration. All candidates will be able to pass a state background check and will have to register with the [Louisiana Applied Behavior Analyst Board](#).

This is an hourly position, which pays \$15 an hour. Line Technicians work 35 hours per week (8:00AM to 3:15PM) and there is opportunity to work in our afterschool clinic for additional hours. Health Insurance is offered for this position, and the cost is split between Chartwell and the employee.

Chartwell's culture is one of hard work, fun, and results for the families we serve. We value a good fit for this position as candidates are expected to work well on a team as well as be responsible for their own performance.

Interested candidates can find more information about Chartwell Center at <http://chartwellcenter.org/careers/>. Those wishing to apply for the ABA Registered Line Technician position should send their resume or curriculum vitae to Chartwell@ChartwellCenter.org.
